

LEADING SOLUTIONS IN EVERY FIELD OF LOGISTICS

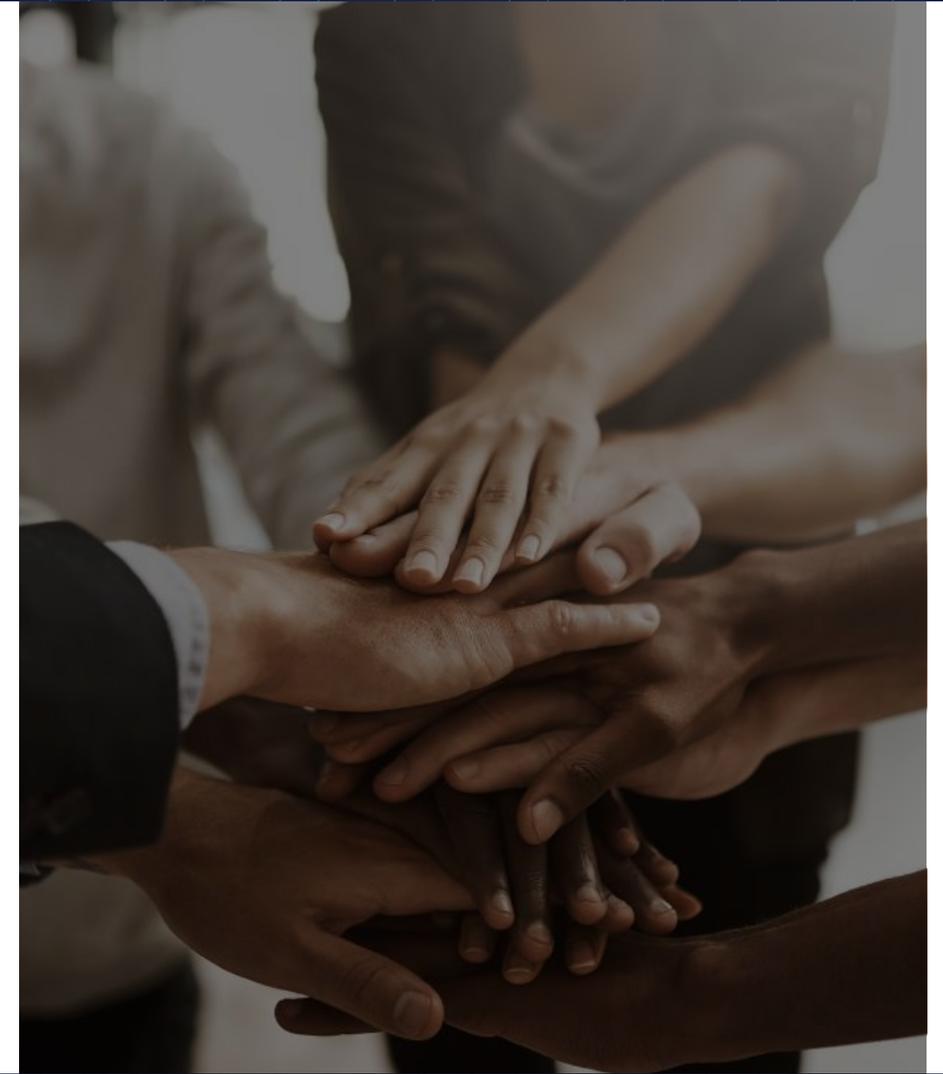

**CORPORATE PRESENTATION**

# WHO WE ARE ?

DGR Global Logistics is the solution partner in the field of global transportation of Doğruer Customs Consultancy Co., a company which has been providing customs clearance, warehousing and freight forwarding/transportation services for a period of more than 60 years in a professional manner with its corporate approach to business.

We aim to become an international corporation providing integrated logistics solutions, in particular in the fields of international transportation, customs clearance, warehousing, inland transportation and insurance blending our innovative service concept with our mission and vision.

We aim to expand our service network through innovations by taking part and achieving great successes in salient and remarkable activities and operations on a global basis and thanks to this approach to grow and extend our high-quality corporate services to a wider market and audience in different countries.

# MISSION & VISION

## Our Mission

We aim to continue to carry out our activities as a global brand that adopts and embraces our high-quality concept, systematic working approach and policy and ethical values in supporting the global business activities of our customers.

## Our Vision

As a global company, we aim to become the most preferred brand by our customers with our innovative solutions by meeting all of the requirements of digitalization, providing convenience to our customers in terms of pricing and operational processes.

# SEA FREIGHT

With our dynamic and specialist team of staff and innovative approach and solutions, we make a significant contribution and add value to our customers in Maritime Transport, which stands out as the backbone of international trade and global economy remaining as one of the most reliable, predictable and efficient mode of transport all around the world,

We provide maritime transport services to many countries around the world in parallel with our wide service network. In this context, we use two different methods known as FCL (FCL stands for Full Container Load) and LCL (LCL stands for Less than Container Load) and we strive to develop alternative solutions for these methods.

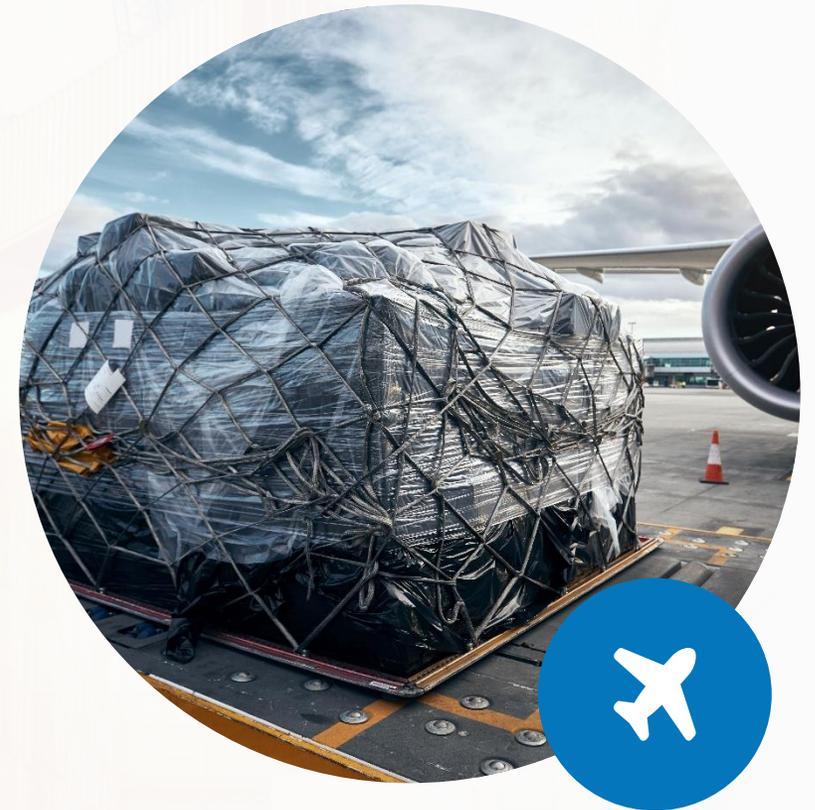

In the meanwhile, we also offer services such as bulk cargo, conventional cargo transportation, RO-RO freight, transit, in transit shipments, transportation to third countries and multimodal transportation.

# AIR FREIGHT

Within the scope of Air cargo transportation which is distinguished by a faster and convenient transportation opportunity, DgR Global offers air cargo transportation services to and from every destination around the world to our customers with our wide agency network and full-fledged connections.

With our certifications by global bodies such as FIATA, UTIKAD, World of Freight (WOF) and accessibility to all airlines worldwide, we support our customers by adopting a systematic approach in all stages of the process by providing charter services apart from alternative air cargo transportation.

# LAND TRANSPORT

We carry out our activities through a wide service network in land transportation, which is one of the most remarkable modes of transportation in the logistics industry adopting a systematic service approach.

Through our wide supplier network, we offer land transport services for all industries, in particular for pharmaceuticals, food, raw materials, construction, automotive and textile to all countries to or from which Turkey exports and import, of course mainly to the European countries.

**The Countries To WHICH WE CARRY OUT COMPLETE AND PARTIAL TRANSPORTATION SERVICES:**

# INTERMODAL TRANSPORTATION

Intermodal transportation is a type of transportation that is carried out by using two or more transportation modes to more than one destination and in which the loads in the vehicle are not subjected to any handling during mode changes.

Our objective is to meet the demands of our customers in a timely and complete manner by using different transportation modes with the same transportation vehicle and in which the loads in the vehicle are not subjected to any handling.

Thus, by ensuring cost savings for our customers and adopting a planned and organized work throughout the process, we provide with our customers services enabling environmentally sustainable freight transport.

# WAREHOUSING SERVICE

We offer our customers high quality and reliable warehousing services at the world standards in the warehouses of our solution partner DOĞRUER Logistics company located in İstanbul, Antalya, Adana and İzmir regions.

Our warehouses are equipped with the most advanced technological infrastructure and racking and shelving systems. Thanks to our high quality and excellent customer care approach, we always meet client specific warehousing service requests of our customers and make a significant contribution to the storage of their goods and articles in a safe and reliable manner.

## Through our high-quality services and solutions, we aim to:

- ❑ Support our customers to reduce their operational costs throughout their supply chains
- ❑ Support our customers to engage in researches, activities and studies that will help them to gain competitive advantage in their own industry.
- ❑ Meet the needs and requirements of our customers in the most cost-effective manner.

# INSURANCE SERVICE

We transport the goods and articles of our customers to all delivery points throughout Turkey in a safe and reliable manner with our most cost-effective insurance solutions by expertly and accurately analyzing the risks in the transportation process.

With our years of experience in the sector in customs clearance and insurance services, one of the most important processes of supply chain management, we keep the import and export transactions of our business partners secure.

- We secure all risks that may occur during the road, air, sea and rail transport of the cargo.
- In addition to shipping insurance, we offer solutions for all other corporate and individual insurance services you need.
- We handle your customs procedures for you.

# CUSTOMS CLEARANCE

We provide our customers with all services they need both during customs clearance procedures and after customs clearance based on our service mentality in compliance with the applicable customs legislation and regulation, and conducting and managing our activities and operations in a planned and systematic manner in all phases of the process in collaboration with DOĞRUER Customs Consultancy company, our solution partner in the field of customs clearance, and leveraging its experience over 60 years in this field, and its professional service approach and technological infrastructure designs.

DOĞRUER Customs Consultancy company, with its 30 branches across Turkey and over 1.000 talented and qualified employees employed in all departments across DOĞRUER and, with over approximately 500 employees working in the customs consultancy departments gives confidence also to the customers of DGR Global Logistics company.

## OUR DOMESTIC SERVICE

DgRGlobal Logistics provides services to its customers in the fastest way by using its own vehicles for requests such as domestic transportation or transfer. Moreover, DgRGlobal also has a contracted supplier infrastructure against the problems of finding suitable vehicles

On the other hand, thanks to a powerful information system, DgRGlobal not only shares up-to-date information with its customers during the operation period of their vehicles, by tracking their cargo 24/7, and also informs the customer about the cargo temperature after transportation with the measuring device inside their vehicle..
