About Us

PT Perigi Raja Terpadu (Perigi Logistics) is an export and import services company with its head office in Soewarna Business Park, Lot H-11 B, Soekarno-Hatta International Airport. was established on March 13, 2018.

Since its establishment, Perigi Logistics has focused on increasing efficiency in the international shipping process, especially in customs, licensing, and supply chain management. The company is committed to becoming the logistics partner of choice for various industries by providing timely, safe, and efficient services.

Vision & Mission

VISION

To become an Indonesia trustworthy and reliable logistics company by consistently providing top-quality services to its customers.

MISSION

- 1 We aim to deliver what we promise and build long-term relationships with our stakeholders.
- 2 Committed to delivering with a passion for excellence.
- 3 Ensuring transparent business processes.
- 4 Achieving seamless connectivity by applying the latest technology and integrated systems.
- 5 Supported by qualified and enthusiastic personnel with continuous improvement through engagement and

*Navigating global trade,
one shipment at a time!*

The History of Our Company

The history of Perigi Logistics can be summarized through several main stages:

- 01 Establishment and Initial Operations**

Perigi Logistics began its operations with a primary focus on providing export and import services for local companies engaged in international trade. Since its inception, the company has successfully positioned itself as a reliable service provider in managing freight forwarding via air, sea, and land.
- 02 Infrastructure Development**

Perigi Logistics expanded its infrastructure and network with increasing demand. Its strategic location near Soekarno-Hatta International Airport facilitates access to air logistics management, while partnerships with various global logistics operators expand its international service reach.
- 03 Implementation of Quality Standards**

Perigi Logistics has implemented a quality management system based on **ISO 9001 : 2015**, **ISO 14000 : 2015**, **ISO 45001 : 2018** to increase customer trust and strengthen its position in the industry. This standard ensures that every operational process meets international standards, including customer satisfaction management, continuous improvement, and effective risk management.
- 04 Service Expansion**

In addition to export and import services, Perigi Logistics has expanded its service portfolio by offering refrigerated container rental, inventory management, and customs and regulatory consulting services.

Perigi Logistics continues to grow with a strong commitment to operational efficiency and service excellence, making it one of the main players in the Indonesian logistics industry.

Support Alliance

- **Life Logistic**

Life Logistics is a global alliance of top-class pharmaceutical logistics forwarders. This network was established to unite pharmaceutical forwarders under one global umbrella, addressing the increasing demands of pharmaceutical companies worldwide.

- **WOF Alliance**

WOF Alliance is the only global freight forwarding network connected to a whole unique supply chain platform hosted by World of Freight which are connecting manufacturers, retailers, wholesalers, importers, and exporters from vital industries such as automotive, electronics, healthcare, machinery, food and beverages, and others with the most up-to-date supply chain solution providers from all transport and logistics modes.

Team Competency

- Trained and experienced employees
- Good Storage and Distribution Practice for Pharmaceutical Certification

Why Choose Bonded Warehouse Perigi Logistics

01 **Faster and More Accurate Import Process**

A data system directly controlled by Customs makes the import process more efficient and minimizes errors, ensuring the smooth flow of goods.

02 **Comprehensive Supervision Integration**

Air Bonded Warehouse Perigi Logistics enables comprehensive supervision integration between the warehouse, goods owner, and Customs to monitor the entire process in real time.

03 **Convenience for Customers**

Customers can check the status of processed data and gate-out status periodically. Thus, the processing time becomes faster, supported by adequate infrastructure.

04 **Effectiveness for Customs**

Air Bonded Warehouse Perigi Logistics facilitates Customs with real-time reporting of warehouse conditions, supervision of incoming and outgoing goods, and strategically placed supervision posts to increase supervision effectiveness.

Our Products & Services

Export-Import Shipping by Air and Sea

We offer reliable international shipping services by air and sea, ensuring your goods reach their destination on time at competitive prices.

Document Management/Custom Clearance Services

We handle the export-import administration process, including document management and custom clearance services, to ensure smooth operations and compliance with customs regulations.

E-commerce Logistic

PT Perigi Raja Terpadu also supports shipping in the e-commerce sector, offering customized logistics solutions for online businesses with modern technology integration.

Project Handling

We are experienced in handling large projects that require complex coordination and logistics, including shipping heavy equipment and goods with special dimensions.

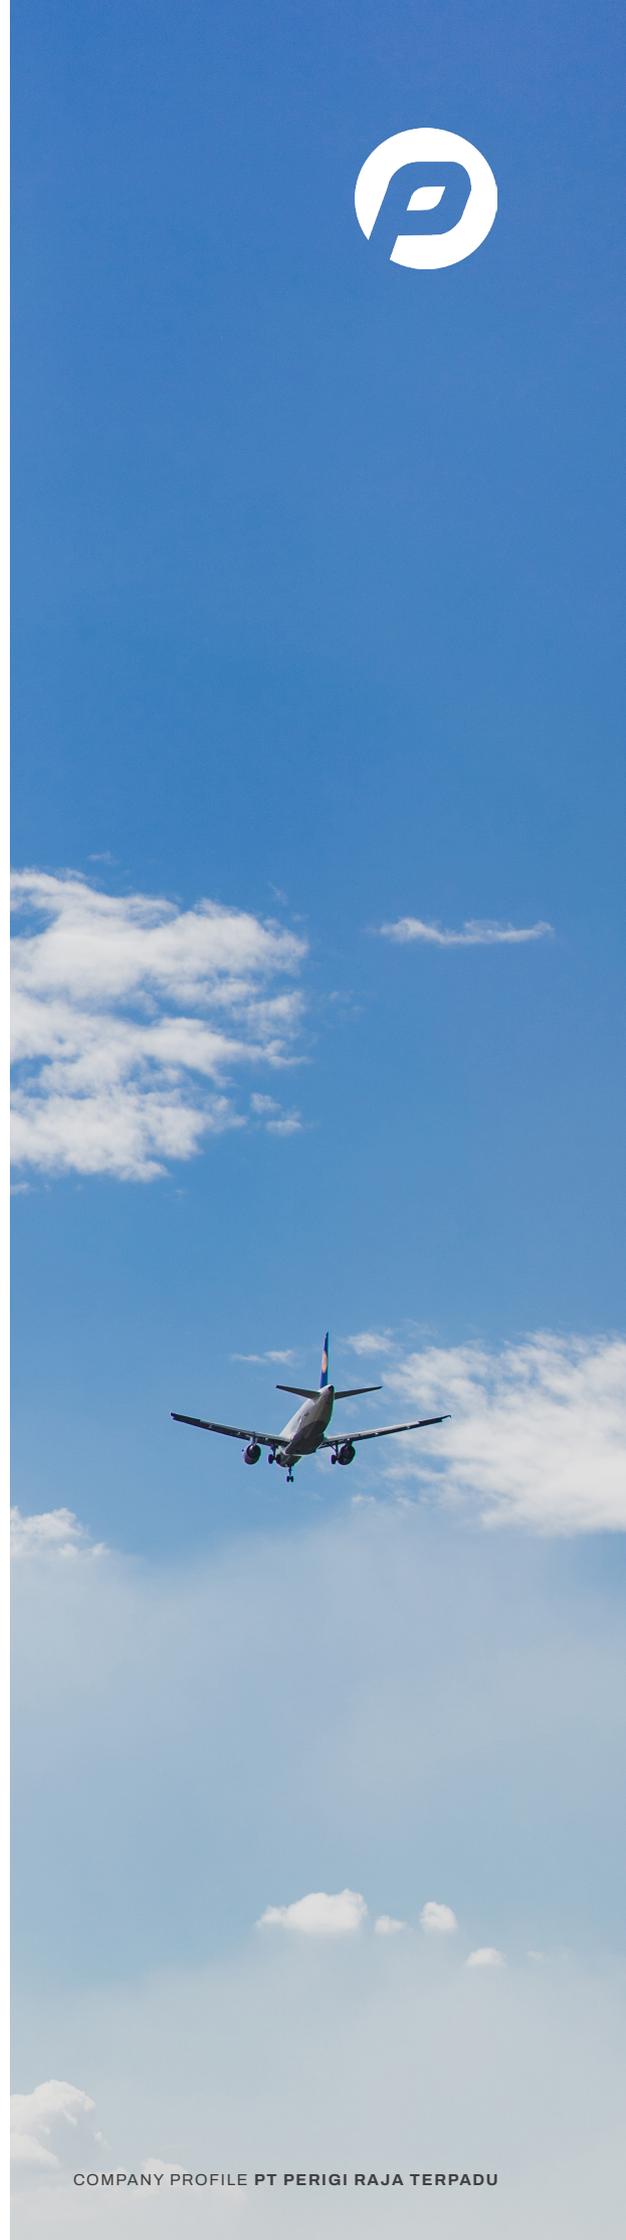

Warehousing Services

We provide secure and structured warehousing facilities for temporary storage of goods, equipped with state-of-the-art inventory management technology to ensure optimal goods management.

Efficient logistics, grounded in excellence

Our Business Line

Bonded Warehouse

Perigi Warehouse is one of our key business units specializing in air-bonded warehouse services. These services support international logistics and distribution processes by providing efficient, secure, and customs-compliant storage facilities.

Main Advantage

- 1 Strategic Location**

Our bonded warehouse is strategically located near major airports in Jakarta, ensuring smooth international air shipments and reducing transit times for goods.
- 2 Modern Facilities**

Equipped with state-of-the-art technology, including an integrated Warehouse Management System (WMS), temperature-controlled storage for sensitive goods, and 24/7 security monitoring to maintain the integrity of goods.
- 3 Customs Benefits**

As a bonded warehouse, we offer advantages such as deferred payment of import duties and taxes until the goods are distributed or further processed, helping clients optimize cash flow and reduce costs.
- 4 Diverse Services**
 - Storage of imported goods awaiting customs clearance.
 - Repacking, labeling, and preparing goods for export or domestic distribution.
 - Consolidation and deconsolidation of air cargo.
 - Management of sensitive goods, such as electronics, pharmaceuticals, or high-value products.
- 5 Regulatory Compliance**

We work closely with customs authorities to ensure all processes adhere to regulations, minimizing the risk of delays or penalties.

Warehouse Facilities

Cold Storage

Air-Conditioned Storage

- Room area: 15 x 6 m²
- Adjustable temperature range: 18–25°C

- Adjustable temperature range: -20°C to 5°C
- Temperature logger system
- Equipped with a power generator

Garuda E-Commerce Warehouse

Garuda E-Commerce Warehouse is one of our flagship business lines. We specialize in providing logistics facilities and services to support e-commerce operations. With the rising trend of online shopping, this service is designed to help e-commerce businesses manage inventory, packaging, and distribution more efficiently.

Main Advantage

- 1 Modern Facilities and Advanced Technology**

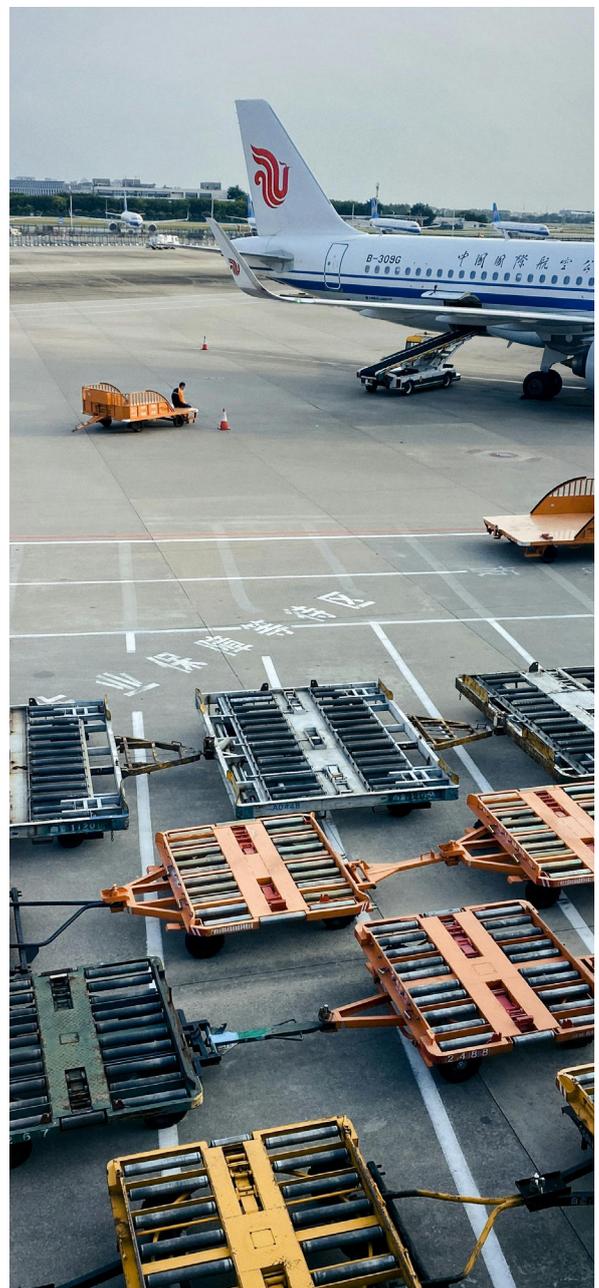

The warehouse has cutting-edge Warehouse Management System (WMS) technology that enables real-time inventory management. Offers flexible storage options, from standard racks to facilities for items with special requirements, such as temperature-controlled storage.
- 2 Integration with E-Commerce Platforms**

The warehouse system is integrated with popular e-commerce platforms, allowing for automatic order synchronization. Speeds up the process of picking, packing, and shipping goods.
- 3 Comprehensive Fulfillment Services**
 - **Order Processing:** Covers everything from receiving orders, picking items, to packing them.
 - **Order Customization:** Additional services such as labeling, gift wrapping, or special promotions.
 - **Fast Shipping:** Collaboration with multiple delivery service providers ensures timely delivery.
- 4 Strategic Location**

Strategically located in key logistics hubs to facilitate smooth distribution to various domestic and international regions. This location ensures streamlined shipping processes and reduced transit times.
- 5 High Security and Compliance**

Equipped with 24/7 security systems, including CCTV, access control, and damage protection for goods. Fully compliant with all regulations regarding storage and logistics operations.
- 6 Scalability for All Business Sizes**

Ideal for small businesses as well as large corporations requiring large-scale inventory management. Flexible facilities that can adapt to the needs of growing businesses.
